

Stephen's Edge stress-free paint job GUARANTEED

Quirky and quick-witted Englishman, Stephen Linnington, is not what most people envision when they think of a commercial and residential painter. The well-educated, multi-faceted entrepreneur has raised the bar for the entire painting industry in Manitoba by offering a 100% satisfaction guarantee that includes a two-year, no-holds-barred warranty on all his work.

As a young man growing up in England, Linnington learned the ins and outs of the painting industry from his grandfather. Using the wisdom and expertise his grandfather acquired from a lifetime of painting, Linnington continues to learn and keep on top of the newest trends and products in the painting industry. He also personally selects only the best-qualified painters in the industry to work with him, ensuring all jobs meet the high standards of quality his grandfather instilled in him.

"Our job is only complete when you are 100% satisfied and you can rest easy knowing that you have a two-year, no-holds-barred warranty," says Linnington.

"From painting the smallest home to large commercial contracts, we put preparation and quality of application above everything else."

Stephen's Edge Painting has developed a niche market for doing impeccable work refurbishing beautiful, old, character homes and buildings. No matter how complex and challenging the job is, Linnington guarantees that all clients have a stress-free, superb experience leaving them so impressed they will refer Stephen's Edge Painting to others.
